6) **VARIATIONS**

Variations

Arrange your product listing with multiple configurations in a single listing

Variations are different options within the same listing. Variations allow buyers to make their selection based on different attributes including size, colour, or other characteristics from the same product on a single detail page.

Types of variation	When to use	Example
No Variations	There is no configuration available for the product	Any non-variant products
Single Variations	The products vary in one configuration only and buyers can make purchasing decision based on the difference between these configurations	1) Hats available with different colors 2) Laptop model available in 13-inch and 15-inch
Two-tiers variations	The products vary in two configurations and buyers can make purchasing decision by comparing those configurations	1) Dress with different colors <u>and</u> sizes 2) iPhone with different memory sizes <u>and</u> colors

Size Chart is a feature that allows sellers to upload a guideline on product sizes and measurements.

The aim is to **help buyers make informed decisions** before purchasing fashion-related items in order to **reduce the number of returning products due to unfit size.**

This feature can be accessed by buyers when selecting product variations.

How to upload size chart?

Home > My Products > Add a New Product
